ABOUT HUNT & HUNT

Hunt & Hunt has a long history of representing and working with many local Governments throughout Victoria.

We have worked with Councils in metropolitan, regional and rural Victoria on a variety of projects, from acquisitions of strategic land parcels through to high level governance advice.

Local communities, State Government and the media increasingly subject Councils to demands for higher levels of service quality and probity in service delivery and governance.

In the background, the historic cost shift in the burden of provision of essential community services away from commonwealth and state authorities to local government has continued.

Councils continue to face pressures around the added burden of rate capping to a level well below inflation.

In such times it is critical that Councils receive support from a legal provider with genuine relevant practical experience and ongoing connections within both the Victorian Local Government community and State and

Commonwealth Government sectors.

Hunt & Hunt is one of the pre-eminent legal authorities in local governments, with an ongoing commitment to involvement in all aspects of the sector.

We value any opportunity to better understand how we can more efficiently meet the legal needs of Councils and work better with them to serve their local communities.

We take pride in providing the best value for money to our many local government sector clients.

At Hunt & Hunt we believe in supporting local community through practical initiatives like our involvement in the Career Trackers Indigenous Internship Program and our ongoing promotion of diversity and inclusion.

We also believe in giving back to and strengthening the sectors we work with and are proud sponsors of initiatives like the LG Pro Women's Professional Development Scholarship and the Victorian Local Governance Association (VLGA) The Governance Update podcast.

Genuine People | Practical Solutions

'Genuine People, Practical Solutions' encapsulates the ethos of our law firm, embodying our commitment to authenticity and a no-nonsense, results-driven approach. It signifies our dedication to fostering real and trusting relationships with our clients – understanding their unique circumstances, concerns, and aspirations.

We prioritise genuine connections and empathy, aiming to truly comprehend the individuals

behind each case or legal matter. Through this understanding, we craft practical, tailored, and effective solutions that directly address our clients' needs.

Our tagline emphasises our belief in cutting through legal complexities to deliver clear, actionable, and pragmatic resolutions, always rooted in the real-world context of our clients' situations.
