

# GREAT THINGS ARE HAPPENING IN YOUR AREA

We are making changes to the nbn network in your community. These changes are essential to Australia's growth and mean you could experience improved connectivity with faster internet speeds, increased reliability and more choice.\*

CHECK ELIGIBILITY

To check whether your home or business is eligible to upgrade, check your address on our website at [nbn.com.au](https://nbn.com.au) and register for updates.

\*Your experience, including the speeds actually achieved over the nbn network, depends on the nbn network technology and configuration over which services are delivered to your premises, whether you are using the internet during the busy period, and some factors outside our control (like your equipment quality, software, broadband plans, signal reception and how your service provider designs its network). Speeds may be impacted by the number of concurrent users on nbn's Fixed Wireless network, including during busy periods.
